Independent Auditors' Report Translated from Chinese

Independent Auditors' Report

To Unitech Electronics Co., Ltd.

Opinion

We have audited the accompanying parent company only balance sheets of Unitech Electronics Co., Ltd. as of December 31, 2025 and 2024, and the related parent company only statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2025 and 2024, and notes to the parent company only financial statements, including the summary of significant accounting policies (together “the parent company only financial statements”).

In our opinion, the parent company only financial statements referred to above present fairly, in all material respects, the parent company only financial position of Unitech Electronics Co., Ltd. as of December 31, 2025 and 2024, and the parent company only financial performance and the parent company only cash flows for the years ended December 31, 2025 and 2024, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Parent Company Only Financial Statements section of our report. We are independent of Unitech Electronics Co., Ltd. in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the “Norm”), and we have fulfilled our other ethical responsibilities in accordance with the Norm. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of 2025 parent company only financial statements. These matters were addressed in the context of our audit of the parent company only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue recognition

Unitech Electronics Co., Ltd. recognized NT\$2,130,168 thousand as operating revenue which mainly stemmed from the sale of automatic identification data capture products for the year ended December 31, 2025. Sale of automatic identification data capture products is the main operating activity of Unitech Electronics Co., Ltd. The revenue was recognized when Unitech Electronics Co., Ltd. has transferred the promised goods to its customers and satisfied the performance obligations. Timing of revenue recognition may vary due to the differences in trade terms of goods agreed in the contract that increased the complexity of the revenue recognition. As a result, we determined this matter as a key audit matter. Our audit procedures include (but are not limited to): assessing the appropriateness of the accounting policies regarding revenue recognition; evaluating and testing the design and operating effectiveness of internal control over revenue recognition; performing test of details on a sampling basis by checking relevant documents to verify when performance obligations were satisfied and the accuracy of timing of revenue recognition; vouching relevant documents of the selected samples of sales transactions before and after a certain period of the balance sheet date to ensure the appropriate cut-off of sales and sales returns; and reviewing the significant returns and allowances in subsequent periods, etc. We also assessed the adequacy of accounting policy and disclosures of operating revenue. Please refer to Note 4(18) and Note 6(15) to the parent company only financial statements.

Inventory evaluation

Unitech Electronics Co., Ltd. had net inventory of NT\$388,835 thousand, representing 15.85% of total assets as of December 31, 2025. Due to the rapid change of technology of automatic identification data capture products, management had to evaluate the write-down of inventories caused by obsolescence. As this assessment involves management's judgement, we therefore determined this matter as a key audit matter. Our audit procedures include (but are not limited to): evaluating and testing the design and operating effectiveness of internal controls over the slow-moving and obsolete inventories valuation, including the methods and assumptions used; testing the key assumptions used in evaluating the reserve of slow-moving inventories, including evaluating the reasonableness of inventory reserve percentages and comparing previous estimates with actual results to assess the accuracy of assumptions made by management about the slow-moving and obsolete inventories; and testing the accuracy of inventory aging, etc. We also assessed the adequacy of accounting policy and disclosures of inventories. Please refer to Note 4(10), Note 5(2), and Note 6(7) to the parent company only financial statements.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the ability to continue as a going concern of Unitech Electronics Co., Ltd., disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate Unitech Electronics Co., Ltd. or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the financial reporting process of Unitech Electronics Co., Ltd.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of Unitech Electronics Co., Ltd.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of Unitech Electronics Co., Ltd. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause Unitech Electronics Co., Ltd. to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the accompanying notes, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within Unitech Electronics Co., Ltd. and its subsidiaries to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of 2025 parent company only financial statements and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Hu, Shen-Chieh

The accompanying notes are an integral part of the parent company only financial statements.

Chairman: Yeh, Chia-Wen

President: Hsu, Chih-Ta

Chief Financial Officer: Chang, Chia-Lin

1. History and Organization

In order to achieve organizational restructuring and to improve competitiveness and business performance, on January 1, 2008, in accordance with the Business Mergers and Acquisitions Act, Unitech Computer Co., Ltd. carved out its automatic identification data division, with the business value of NT\$900,000 thousand, and established Unitech Electronics Co., Ltd. (“the Company”). The Company issued 40,000 thousand shares of common stock, with a par value of NT\$22.5 per share to Unitech Computer Co., Ltd. for this carve-out transaction.

The Company principally engaged in the development, manufacture and sale of automatic identification data capture product and related businesses.

The Company’s shares had been listed and traded in the Taipei Exchange (TPEX) since August 2009. But on September 21, 2022, its shares were transferred to the Taiwan Stock Exchange for trading.

The Company’s registered office is at 5F, No.136, Lane 235, Baoqiao Road, Xindian District, New Taipei City, Taiwan (R.O.C.). Unitech Computer Co., Ltd. is the Company’s parent company, which is also the ultimate controller of the group to which the Company belongs to.

2. Date and Procedures of Authorization of Financial Statements for Issue

The parent company only financial statements for the years ended December 31, 2025 and 2024 were authorized for issue in accordance with a resolution of the Board of Directors’ meeting on March 10, 2026.

3. Newly Issued or Revised Standards and Interpretations

- (1) Changes in accounting policies resulting from applying for the first-time certain standards and amendments

The Company applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission (“FSC”) and become effective for annual periods beginning on or after January 1, 2025. The adoption of these new standards and amendments had no material impact on the Company.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board (“IASB”) which have been endorsed by FSC, and not yet adopted by the Company as of the date when the Company’s financial statements were authorized for issue, are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date Issued by IASB
a	IFRS 17 “Insurance Contracts”	January 1, 2023
b	Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7	January 1, 2026
c	Annual Improvements to IFRS Accounting Standards – Volume 11	January 1, 2026
d	Contracts Referencing Nature-dependent Electricity – Amendments to IFRS 9 and IFRS 7	January 1, 2026

(a) IFRS 17 “Insurance Contracts”

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and it was amended in 2020 and 2021. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after January 1, 2023 (from the original effective date of January 1, 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after January 1, 2023.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(b) Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7

The amendments include:

- (1) Clarify that a financial liability is derecognised on the settlement date and describe the accounting treatment for settlement of financial liabilities using an electronic payment system before the settlement date.
- (2) Clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features.
- (3) Clarify the treatment of non-recourse assets and contractually linked instruments.
- (4) Require additional disclosures in IFRS 7 for financial assets and liabilities with contractual terms that reference a contingent event (including those that are ESG-linked), and equity instruments classified at fair value through other comprehensive income.

(c) Annual Improvements to IFRS Accounting Standards – Volume 11

- (1) Amendments to IFRS 1
The amendments mainly improve the consistency in wording between first-time adoption of IFRS and requirements for hedge accounting in IFRS 9.
- (2) Amendments to IFRS 7
The amendments update an obsolete cross-reference relating to gain or loss on derecognition.
- (3) Amendments to Guidance on implementing IFRS 7
The amendments improve some of the wordings in the implementation guidance, including the introduction, disclosure of deferred difference between fair value and transaction price and credit risk disclosures.
- (4) Amendments to IFRS 9
The amendments add a cross-reference to resolve potential confusion for a lessee applying the derecognition requirements and clarify the term “transaction price”.

UNITECH ELECTRONICS CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(5) Amendments to IFRS 10

The amendments remove the inconsistency between paragraphs B73 and B74 of IFRS 10.

(6) Amendments to IAS 7

The amendments remove a reference to “cost method” in paragraph 37 of IAS 7.

(d) Contracts Referencing Nature-dependent Electricity – Amendments to IFRS 9 and IFRS 7

The amendments include:

(1) Clarify the application of the ‘own-use’ requirements.

(2) Permit hedge accounting if these contracts are used as hedging instruments.

(3) Add new disclosure requirements to enable investors to understand the effect of these contracts on a company’s financial performance and cash flows.

The abovementioned standards and amendments are applicable for annual periods beginning on or after January 1 2026 and have no material impact on the Company.

(3) Standards or interpretations issued, revised or amended, by IASB which have not been endorsed by FSC, and not yet adopted by the Company as of the date when the Company’s financial statements were authorized for issue, are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date Issued by IASB
a	IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
b	IFRS 18 “Presentation and Disclosure in Financial Statements”	January 1, 2027 (Note)
c	Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)	January 1, 2027
d	Translation to a Hyperinflationary Presentation Currency (Amendments to IAS 21 and IAS 29)	January 1, 2027

Note: On September 25, 2025, the FSC announced in a press release that Taiwan will adopt IFRS 18 in 2028.

(a) IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The amendments address the inconsistency between the requirements in IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures”, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors’ interests in the associate or joint venture.

(b) IFRS 18 “Presentation and Disclosure in Financial Statements”

IFRS 18 replaces IAS 1 Presentation of Financial Statements. The main changes are as below:

- (1) Improved comparability in the statement of profit or loss (income statement)
IFRS 18 requires entities to classify all income and expenses within their statement of profit or loss into one of five categories: operating; investing; financing; income taxes; and discontinued operations. The first three categories are new, to improve the structure of the income statement, and requires all entities to provide new defined subtotals, including operating profit or loss. The improved structure and new subtotals will give investors a consistent starting point for analyzing entities’ performance and make it easier to compare entities.
- (2) Enhanced transparency of management-defined performance measures
IFRS 18 requires entities to disclose explanations of those entity-specific measures that are related to the income statement, referred to as management-defined performance measures.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (3) Useful grouping of information in the financial statements
IFRS 18 sets out enhanced guidance on how to organize information and whether to provide it in the primary financial statements or in the notes. The changes are expected to provide more detailed and useful information. IFRS 18 also requires entities to provide more transparency about operating expenses, helping investors to find and understand the information they need.

- (c) Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)

This new standard and its amendments permits subsidiaries without public accountability to provide reduced disclosures when applying IFRS Accounting Standards in their financial statements. IFRS 19 is optional for subsidiaries that are eligible and sets out the disclosure requirements for subsidiaries that elect to apply it.

- (d) Translation to a Hyperinflationary Presentation Currency (Amendments to IAS 21 and IAS 29)

The amendments include:

- (1) Clarify that when the entity's functional currency is that of a non-hyperinflationary economy but its presentation currency is the currency of a hyperinflationary economy, the entity shall translate its results and financial position using the closing rate at the date of the most recent statement of financial position.
- (2) In the above circumstances, when the presentation currency ceases to be hyperinflationary economy, the entity shall not retranslate amounts that arose before the beginning of the reporting period.
- (3) When the entity's functional currency and presentation currency are the currency of a hyperinflationary economy, the entity shall apply the relevant accounting treatment in accordance with paragraph 34 of IAS 29.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Company's financial statements were authorized for issue, the local effective dates are to be determined by FSC. As the Company is still currently determining the potential impact of the new or amended standards and interpretations listed under (b), it is not practicable to estimate their impact on the Company at this point in time. The remaining new or amended standards and interpretations have no material impact on the Company.

4. Summary of Significant Accounting Policies

(1) Statement of compliance

The parent company only financial statements of the Company for the years ended December 31, 2025 and 2024 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (“the Regulations”).

(2) Basis of preparation

According to Article 21 of the Regulations, the profit or loss and other comprehensive income presented in the parent company only financial reports will be the same as the allocations of profit or loss and of other comprehensive income attributable to owners of the parent presented in the financial reports prepared on a consolidated basis, and the owners’ equity presented in the parent company only financial reports will be the same as the equity attributable to owners of the parent presented in the financial reports prepared on a consolidated basis. Therefore, the investments in subsidiaries will be disclosed under “investments accounted for using the equity method” in the parent company only financial report and change in value will be adjusted.

The parent company only financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The parent company only financial statements are expressed in thousands of New Taiwan Dollars (“NT\$”) unless otherwise stated.

(3) Foreign currency transactions

The Company’s parent company only financial statements are presented in its functional currency, NT\$.

Transactions in foreign currencies are initially recorded by the Company at its functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates as of the dates of the initial transactions.

UNITECH ELECTRONICS CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- A. exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- B. foreign currency items within the scope of IFRS 9 Financial Instruments are accounted for based on the accounting policy for financial instruments.
- C. exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

(4) Translation of financial statements in foreign currency

Each foreign operation of the Company determines its functional currency upon its primary economic environment and items included in the financial statements of each operation are measured using that functional currency. The assets and liabilities of foreign operations are translated into New Taiwan Dollars at the closing rate of exchange prevailing at the reporting date and their income and expenses are translated at an average rate for the period. The exchange differences arising on the translation are recognized in other comprehensive income. On the disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation, recognized in other comprehensive income and accumulated in the separate component of equity, is reclassified from equity to profit or loss when the gain or loss on disposal is recognized. On the partial disposal of foreign operations that result in a loss of control, loss of significant influence or joint control but retain partial equity is considering as disposal.

On the partial disposal of a subsidiary that includes a foreign operation that does not result in a loss of control, the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is accounted as equity transactions, no gains or losses are recognized. In partial disposal of an associate or joint control that includes a foreign operation that does not result in a loss of significant influence or joint control, only the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is reclassified to profit or loss.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(5) Current and non-current distinction

An asset is classified as current when:

- A. the Company expects to realize the asset, or intends to sell or consume it, in its normal operating cycle.
- B. the Company holds the asset primarily for the purpose of trading.
- C. the Company expects to realize the asset within twelve months after the reporting period.
- D. the asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- A. the Company expects to settle the liability in its normal operating cycle.
- B. the Company holds the liability primarily for the purpose of trading.
- C. the liability is due to be settled within twelve months after the reporting period.
- D. the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

(6) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid time deposits or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value (including time deposits with contract periods within three months).

(7) Financial instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 Financial Instruments are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

A. Financial instruments: Recognition and Measurement

The Company accounts for regular way purchase or sales of financial assets on the trade date.

The Company classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

- a. the Company's business model for managing the financial assets and
- b. the contractual cash flow characteristics of the financial asset.

Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as notes receivable, trade receivables, financial assets measured at amortized cost, and other receivables, etc., on balance sheet as of the reporting date:

- a. the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- b. the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognize the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- a. purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- b. financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Financial assets measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- a. the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- b. the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income is described below:

- a. A gain or loss on a financial asset measured at fair value through other comprehensive income is recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- b. When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- c. Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:
 - (a) purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
 - (b) financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Besides, for certain equity investments within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Company made an irrevocable election to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income shall not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on the balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represent a recovery of part of the cost of investment.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Financial assets at fair value through profit or loss

Financial assets were measured at amortized cost or measured at fair value through other comprehensive income only if they met particular conditions. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

B. Impairment of financial assets

The Company recognizes a loss allowance for expected credit losses on debt instrument investments measured at fair value through other comprehensive income and financial assets measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the balance sheet.

The Company measures expected credit losses of a financial instrument in a way that reflects:

- a. an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- b. the time value of money; and
- c. reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The loss allowance is measures as follows:

- a. at an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Company measures the loss allowance at an amount equal to lifetime expected credit losses in the previous reporting period, but determines at the current reporting date that the credit risk on a financial asset has increased significantly since initial recognition is no longer met.
- b. at an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- c. for accounts receivable or contract assets arising from transactions within the scope of IFRS 15, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.
- d. for lease receivables arising from transactions within the scope of IFRS 16, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

At each reporting date, the Company needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

C. Derecognition of financial assets

A financial asset is derecognized when:

- a. the rights to receive cash flows from the asset have expired.
- b. the Company has transferred the asset and substantially all the risks and rewards of the asset have been transferred.
- c. the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

D. Financial liabilities and equity

Classification between liabilities or equity

The Company classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Financial liabilities

Financial liabilities within the scope of IFRS 9 “Financial Instruments” are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss are financial liabilities held for trading. A financial liability is classified as held for trading if:

- a. it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- b. on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- c. it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Gains or losses on the subsequent measurement of liabilities at fair value through profit or loss including interest paid are recognized in profit or loss.

Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

E. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(8) Derivative instruments

The Company uses derivative instruments to hedge its foreign currency risks and interest rate risks. A derivative is classified in the balance sheet as financial assets or liabilities at fair value through profit or loss except for derivatives that are designated as effective hedging instruments which are classified as financial assets or liabilities for hedging.

Derivative instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. The changes in fair value of derivatives are taken directly to profit or loss, except for the effective portion of hedges, which is recognized in either profit or loss or equity according to types of hedges used.

(9) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- A. in the principal market for the asset or liability, or
- B. in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(10) Inventories

Inventory is initially stated at acquisition cost. Cost is measured using the standard cost method. Standard costing considers the normal level of raw materials, labor, efficiency and equipment production capacity, and the Company regularly reviews and adjusts standard costing according to the current situation.

Inventory is subsequently valued at lower of cost and net realizable value item by item.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(11) Investments accounted for using the equity method

The Company's investment in its associate is accounted for using the equity method other than those that meet the criteria to be classified as held for sale. An associate is an entity over which the Company has significant influence.

Under the equity method, the investment in the associate is carried in the balance sheet at cost and adjusted thereafter for the post-acquisition change in the Company's share of net assets of the associate. After the interest in the associate is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate. Unrealized gains and losses resulting from transactions between the Company and the associate are eliminated to the extent of the Company's related interest in the associate.

When changes in the net assets of an associate or a joint venture occur and not those that are recognized in profit or loss or other comprehensive income and do not affect the Company's percentage of ownership interests in the associate or joint venture, the Company recognizes such changes in equity based on its percentage of ownership interests. The resulting capital surplus recognized will be reclassified to profit or loss at the time of disposing the associate or joint venture on a pro rata basis.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

When the associate issues new stock, and the Company's interest in an associate is reduced or increased as the Company fails to acquire shares newly issued in the associate proportionately to its original ownership interest, the increase or decrease in the interest in the associate is recognized in "additional paid in capital" and "investment accounted for using the equity method". When the interest in the associate is reduced, the cumulative amounts previously recognized in other comprehensive income are reclassified to profit or loss or other appropriate items. The aforementioned capital surplus recognized is reclassified to profit or loss on a pro rata basis when the Company disposes of the associate.

The financial statements of the associate are prepared for the same reporting period as the group. Where necessary, adjustments are made to bring the accounting policies in line with those of the group.

The Company determines at each reporting date whether there is any objective evidence that the investment in the associate or an investment in a joint venture is impaired in accordance with IAS 28 Investments in Associates and Joint Ventures. If this is the case the Company calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognizes the amount in the 'share of profit or loss of an associate' in the statement of comprehensive income in accordance with IAS 36 Impairment of Assets. In determining the value in use of the investment, the Company estimates:

- A. Its share of the present value of the estimated future cash flows expected to be generated by the associate, including the cash flows from the operations of the associate and the proceeds on the ultimate disposal of the investment; or
- B. The present value of the estimated future cash flows expected to arise from dividends to be received from the investment and from its ultimate disposal.

Because goodwill that forms part of the carrying amount of an investment in an associate is not separately recognized, it is not tested for impairment separately by applying the requirements for impairment testing goodwill in IAS 36 Impairment of Assets.

Upon loss of significant influence over the associate, the Company measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss. Furthermore, if an investment in an associate becomes an investment in a joint venture, the entity continues to apply the equity method and does not remeasure the retained interest.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

According to Article 21 of the Regulations, the investments in subsidiaries will be disclosed under “investments accounted for using the equity method” and change in value will be adjusted to comply with the Regulations. The profit or loss and other comprehensive income presented in parent company only financial reports will be the same as the allocations of profit or loss and other comprehensive income attributable to owners of the parent presented in the financial reports prepared on a consolidated basis, and the owners’ equity presented in the parent company only financial reports will be the same as the equity attributable to owners of the parent presented in the financial reports prepared on a consolidated basis. The difference, according to IFRS10 Consolidated Financial Statements and the different IFRSs adopted from different reporting entity’s perspectives, of the accounting treatment between the parent company only basis and the consolidated basis are adjusted under “investments accounted for using the equity method”, or “share of profit of subsidiaries, associates, and joint venture accounted for using the equity method”, “share of other comprehensive income of subsidiaries, associates, and joint venture accounted for using the equity method”.

(12) Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Company recognizes such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 “Property, Plant and Equipment”. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

<u>Item</u>	<u>Economic lives</u>
Buildings and facilities	2~55 years
Machinery equipment	3~10 years
Tooling equipment	2~10 years
Transportation equipment	5 years
Office equipment	5~6 years
Leasehold improvement	3~5 years

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

After initial recognition, an item of property, plant and equipment and any significant component is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(13) Leases

The Company assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Company assesses whether, throughout the period of use, has both of the following:

- A. the right to obtain substantially all of the economic benefits from use of the identified asset; and
- B. the right to direct the use of the identified asset.

For a contract that is, or contains, a lease, the Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Company for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Company estimates the stand-alone price, maximising the use of observable information.

Company as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Company recognizes right-of-use assets and lease liabilities for all leases which the Company is the lessee of those lease contracts.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

At the commencement date, the Company measures the lease liabilities at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liabilities comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- A. fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- B. variable lease payments that depend on an index or a rate, initially measured using the index or rate as of the commencement date;
- C. amounts expected to be payable by the lessee under residual value guarantees;
- D. the exercise price of a purchase option if the Company is reasonably certain to exercise that option; and
- E. payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Company measures the lease liabilities on an amortized cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Company measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- A. the amount of the initial measurement of the lease liabilities;
- B. any lease payments made at or before the commencement date, less any lease incentives received;
- C. any initial direct costs incurred by the lessee; and
- D. an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use asset, the Company measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Company measures the right-of-use asset applying a cost model.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

If the lease transfers ownership of the underlying asset to the Company by the end of the lease term or if the cost of the right-of-use asset reflects that the Company will exercise a purchase option, the Company depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Company depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The Company applies IAS 36 “Impairment of Assets” to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Company accounted for as short-term leases or leases of low-value assets, the Company presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements of comprehensive income.

For short-term leases or leases of low-value assets, the Company elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

Company as a lessor

At inception of a contract, the Company classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Company recognizes assets held under a finance lease in its balance sheet and presents them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Company allocates the consideration in the contract applying IFRS 15.

The Company recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index or a rate are recognized as rental income when incurred.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(14) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as of the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are recognized in profit or loss when the asset is derecognized.

Software

The Company's intangible assets are software measured on initial recognition at cost. The cost of the software is amortized on a straight-line basis over the estimated useful life (3~10 years).

A summary of the policies information applied to the Company's intangible assets is as follows:

	<u>Software</u>
Economic lives	Finite
Amortization method used	Amortized on a straight-line basis
Internally generated or acquired	Acquired

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(15) Impairment of non-financial assets

The Company assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 “Impairment of Assets” may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset’s recoverable amount. An asset’s recoverable amount is the higher of an asset’s or cash-generating unit’s (“CGU”) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset’s or cash-generating unit’s recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

(16) Post-employment benefits

All regular employees of the Company are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee’s name in the specific bank account and hence, not associated with the Company. Therefore, fund assets are not included in the Company’s financial statements.

For the defined contribution plan, the Company will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Post-employment benefit plan that is classified as a defined benefit plan uses the Projected Unit Credit Method to measure its obligations and costs based on actuarial assumptions. Remeasurements, comprising of the effect of the actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets, excluding net interest, are recognized as other comprehensive income with a corresponding debit or credit to retained earnings in the period in which they occur.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset, both as determined at the start of the annual reporting period, taking account of any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payment.

(17) Share-based payment transactions

The cost of equity-settled transactions between the Company and its employees is recognized based on the fair value of the equity instruments granted. The fair value of the equity instruments is determined by using an appropriate pricing model.

The cost of equity-settled transactions is recognized, together with a corresponding increase in other capital reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The income statement expense or credit for a period represents the movement in cumulative expense recognized as of the beginning and end of that period.

No expense is recognized for awards that do not ultimately vest, except for equity-settled transactions where vesting is conditional upon a market or non-vesting condition, which are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Where an equity-settled award is cancelled, it is treated as if it vested on the date of cancellation, and any expense not yet recognized for the award is recognized immediately. This includes any award where non-vesting conditions within the control of either the entity or the employee are not met. However, if a new award substitutes for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(18) Revenue recognition

The Company's revenue arising from contracts with customers primarily related to sale of goods and rendering of services. The accounting policies are explained as follows:

Sale of goods

The Company manufactures and sells merchandise. Sales are recognized when control of the goods is transferred to the customer and the goods are delivered to the customers (the customer has the ability to direct the use of the goods and obtain substantially all of the remaining benefits from the goods). The main product of the Company is automatic identification data capture products and revenue is recognized based on the consideration stated in the contract. However, sales transactions are usually accompanied by volume discounts (based on the accumulated total sales amount for a specified period). Therefore, revenue from these sales is recognized based on the price specified in the contract, net of the estimated volume discounts. Based on previous experiences, the Company uses the expected value method to estimate volume discounts. However, revenue is only recognized to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur and when the uncertainty associated with the variable consideration is subsequently resolved. Refund liability is also recognized for the expected volume discounts during the period the contract specifies.

The Company provides its customers with a warranty for its products. The warranty provides assurance that the product will operate as expected by the customers. And the warranty is accounted in accordance with IAS 37.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The credit period of the Company's sale of goods is from 30 to 120 days. For most of the contracts, when the Company transfers the goods to customers and has a right to an amount of consideration that is unconditional, these contracts are recognized as trade receivables. The Company usually collects the payments shortly after transfer of goods to customers; therefore, there is no significant financing component to the contract. For some of the contracts, the Company has transferred the goods to customers but does not have a right to an amount of consideration that is unconditional, these contracts should be presented as contract assets. Besides, in accordance with IFRS 9, the Company measures the loss allowance for a contract asset at an amount equal to the lifetime expected credit losses. Part of the consideration was received from customers upon signing the contract, then the Company has the obligation to provide the services subsequently and it should be recognized as contract liabilities which are transferred to revenue after the performance obligations are satisfied. The period between the transfers of contract liabilities to revenue is usually within one year, thus, no significant financing component is arisen.

Rendering of services

Revenue from the rendering of services primarily comes from maintenance and warranty services. Such services are separately priced, negotiated and provided based on contract period. Where the warranty service has not been provided and the customer has paid the consideration in advance, these amounts are recognized as contract liabilities. As the Company provides the repair and maintenance services over the contract period, the customers simultaneously receive and consume the benefits provided by the Company. Accordingly, the performance obligations are satisfied over time, and the related revenue is recognized over time during the contract period.

(19) Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset. When the grant relates to an expense item, it is recognized as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Where the Company receives non-monetary grants, the asset and the grant are recorded gross at nominal amounts and released to the statement of comprehensive income over the expected useful life and pattern of consumption of the benefit of the underlying asset by equal annual installments. Where loans or similar assistance are provided by governments or related institutions with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as additional government grant.

(20) Income taxes

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the shareholders' meeting.

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- A. where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination; at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

A. where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination; at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and at the time of the transaction, does not give rise to equal taxable and deductible temporary differences.

B. in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

According to the temporary exception in the International Tax Reform – Pillar Two Model Rules (Amendments to IAS 12), information about deferred tax assets and liabilities related to Pillar Two income tax will neither be recognized nor be disclosed.

5. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the Company's parent company only financial statements require management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that would have a significant risk for a material adjustment to the carrying amounts of assets or liabilities within the next financial year are discussed below:

(1) Fair value of financial instruments

Where the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using valuation techniques including the income approach (for example the discounted cash flows model) or market approach. Changes in assumptions about these factors could affect the reported fair value of the financial instruments. Please refer to Note 12 for more details.

(2) Valuation of inventory

Inventories are stated at the lower of cost or net realizable value, and the Company uses judgment and estimate to determine the net realizable value of inventory at the end of each reporting period. Due to the rapid technological changes, the Company estimates the net realizable value of inventory for obsolescence and unmarketable items at the end of reporting period and then writes down the cost of inventory to net realizable value.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(3) Income tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could cause future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective company's domicile.

Deferred tax assets are recognized for all carryforward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies. Please refer to Note 6(21) for more details on unrecognized deferred tax assets as of December 31, 2025.

6. Contents of Significant Accounts

(1) Cash and cash equivalents

	December 31, 2025	December 31, 2024
Cash on hand	\$ 372	\$ 492
Checking and savings accounts	125,087	145,291
Time deposits	5,000	511,140
Total	<u>\$ 130,459</u>	<u>\$ 656,923</u>

UNITECH ELECTRONICS CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(2) Financial assets and liabilities at fair value through profit or loss-current

	December 31, 2025	December 31, 2024
<u>Financial assets</u>		
Financial assets mandatorily measured at fair value through profit or loss		
Funds	\$ 100,798	\$ -
Forward exchange contracts	355	272
Total	\$ 101,153	\$ 272
 <u>Financial liabilities</u>		
Held for trading:		
Forward exchange contracts	\$ 848	\$ 41

Please refer to Note 12(8) for more details on financial instruments of derivative transactions.

(3) Financial assets at fair value through other comprehensive income-noncurrent

	December 31, 2025	December 31, 2024
Equity instrument investments measured at fair value through other comprehensive income-noncurrent:		
Preferred stocks	\$ 25,136	\$ 22,190

Financial assets at fair value through other comprehensive income were not pledged.

(4) Financial assets measured at amortized cost

	December 31, 2025	December 31, 2024
Time deposits-current	\$ 408,460	\$ -
Time deposits-noncurrent	7,606	7,491
Total	\$ 416,066	\$ 7,491

The Company classifies some financial assets as financial assets measured at amortized cost. Since credit risk is low, expected credit losses during the duration are not significant. Please refer to Note 8 for more details on financial assets measured at amortized cost under pledge and Note 12(4) for more details on credit risk.

(12) Short-term borrowings

The Company's unused short-term lines of credits amounted to NT\$531,159 thousand and NT\$537,527 thousand as of December 31, 2025 and 2024, respectively.

Please refer to Note 8 for more details on the pledge or guarantee of the short-term loans of the Company.

(13) Post-employment benefits

Defined contribution plan

The Company adopted a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Labor Pension Act, the Company would make monthly contributions to the employees' individual pension accounts at the amounts not less than 6% of the employees' monthly wages. The Company have made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts.

Expenses under the defined contribution plan for the years ended December 31, 2025 and 2024 were NT\$14,439 thousand and NT\$14,214 thousand, respectively.

Defined benefit plan

The Company adopted a defined benefit plan in accordance with the Labor Standards Act of the R.O.C. The pension benefits are disbursed based on the units of service years and the average salaries in the last month of the service year. Two units per year are awarded for the first 15 years of services while one unit per year is awarded after the completion of the 15th year. The total units shall not exceed 45 units, Service of less than 6 months counts as 6 months, while service of 6 months or more counts as 1 year. Under the Labor Standards Act, the Company contributes an amount equivalent to 2% of the employees' total salaries and wages on a monthly basis to the pension fund deposited at the Bank of Taiwan in the name of the administered pension fund committee. Before the end of each year, the Company assesses the balance in the designated labor pension fund. If the amount is insufficient to cover pension benefit calculated for employees eligible to retire in the next year, the Company would make up the difference in one appropriation before the end of March the following year.

UNITECH ELECTRONICS CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Ministry of Labor is in charge of establishing and implementing the fund utilization plan in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund. The pension fund is invested in-house or under mandating, based on a passive-aggressive investment strategy for long-term profitability. The Ministry of Labor establishes checks and risk management mechanism based on the assessment of risk factors including market risk, credit risk and liquidity risk, in order to maintain adequate flexibility to achieve targeted return without over-exposure of risk. With regard to utilization of the pension fund, the minimum earnings in the annual distributions on the final financial statement shall not be less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. Treasury Funds can be used to cover the deficits after the approval of the competent authority. As the Company does not participate in the operation and management of the pension fund, no disclosure on the fair value of the plan assets categorized in different classes could be made in accordance with paragraph 142 of IAS 19. The Company expects to contribute NT\$429 thousand to its defined benefit plan during the 12 months beginning after December 31, 2025.

The weighted average duration of the defined benefits obligation were both 16 years as of December 31, 2025 and 2024.

Pension costs recognized in profit or loss are as follows:

UNITECH ELECTRONICS CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The principal assumptions used in determining the Company's defined benefit plan are shown below:

	December 31, 2025	December 31, 2024
Discount rate	1.45%	1.67%
Expected rate of salary increases	1.40%	1.58%

Sensitivity analysis for significant assumptions is shown below:

	For the years ended December 31,			
	2025		2024	
	Increase in defined benefit obligation	Decrease in defined benefit obligation	Increase in defined benefit obligation	Decrease in defined benefit obligation
Discount rate increases by 0.5%	\$ -	\$ (461)	\$ -	\$ (968)
Discount rate decreases by 0.5%	503	-	1,057	-
Expected rate of salary increases by 0.5%	501	-	1,053	-
Expected rate of salary decreases by 0.5%	-	(464)	-	(973)

The sensitivity analysis above is based on a change in a significant assumption (for example: change in discount rate or future salary), keeping all other assumptions constant. The sensitivity analysis may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation of one another.

There was no change in the methods and assumptions used in preparing the sensitivity analysis compared to the previous period.

(14) Equity

A. Common stock

The Company's authorized capital as of December 31, 2025 and 2024 was NT\$900,000 thousand divided into 90,000 thousand shares, including 10,000 thousand shares reserved for exercise of employee stock options at each period. The Company's issued capital as of December 31, 2025 and 2024 was NT\$750,975 thousand, with a par value of NT\$10 each share, divided into 75,098 thousand shares.

UNITECH ELECTRONICS CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. Capital surplus

	December 31, 2025	December 31, 2024
Additional paid-in capital	\$ 932,723	\$ 932,723
Expired stock options	2,503	2,503
Total	<u>\$ 935,226</u>	<u>\$ 935,226</u>

According to the Company Act, the additional paid-in capital shall not be used except for offsetting deficit of the company. When a company does not have deficit, it may distribute the additional paid-in capital derived from the issuance of new shares at premiums in excess of par or income from endowments received by the Company. The distribution could be made in cash to its shareholders in proportion to the number of shares being held by each of them.

C. Retained earnings and dividend policy

According to the Company's Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order:

- a. reserve for tax payments;
- b. offset accumulated losses in previous years, if any;
- c. legal reserve, which is 10% of leftover profits;
- d. allocation or reverse of special reserves as required by law or government authorities;
- e. for the rest and the accumulated undistributed earnings, the board of directors programmed to make an earnings distribution proposal, and it shall be distributed after approved by a resolution of a shareholders' meeting.

The distributable dividends and bonuses in whole or in part are paid in cash after a resolution was adopted by a majority vote at a meeting of the board of directors attended by two-thirds of the total number of directors; and in addition thereto a report of such distribution is submitted to the shareholders' meeting; if it is made by the way of issuing new shares, shall be distributed after approved by a resolution of a shareholders' meeting.

UNITECH ELECTRONICS CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Company shall take into consideration its environment and growth stage to meet the future fund requirements when making long-term financial planning and to satisfy the cash inflow requirement of the shareholders. The distribution of shareholders' dividend shall not be lower than 30% of the distributable earnings. The shareholders' dividends may be distributed in the form of shares or cash and cash dividends to be distributed may not be less than 10% of total dividends (cash dividends and stock dividends in total) to be distributed. However, if the total dividends paid in the current year are less than NT\$3 per share, the full stock dividends will be paid.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total paid-in capital. The legal reserve can be used to offset the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

Pursuant to existing regulations, the Company is required to set aside additional special reserve equivalent to the net debit balance of the other components of shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed.

The distribution of earnings for 2025 regarding cash dividends and other earnings distribution items was resolved and proposed by the Board of Directors' meeting held on March 10, 2026, while the distribution of earnings for 2024 regarding cash dividends and other earnings distribution items was resolved by the Board of Directors' meeting on March 4, 2025 and the stockholders' meeting on June 19, 2025, respectively. The details of distribution are as follows:

	Appropriation of earnings		Dividend per share (NT\$)	
	2025	2024	2025	2024
Legal reserve	\$ 10,050	\$ 9,343		
Special reserve	675	(3,927)		
Common stock-cash dividends	89,773	45,059	\$ 1.20	\$ 0.60
Total	<u>\$ 100,498</u>	<u>\$ 50,475</u>		

Please refer to Note 6(18) for more details on employees' compensations and the remuneration to directors.

Others (Note)	1,853	7,582	9,435	1,852	7,672	9,524
Depreciation	19,432	16,283	35,715	20,361	16,503	36,864
Amortization	167	16,618	16,785	350	16,786	17,136

Note: The amounts include group insurance expenses, training expenses, and employee benefits.

The average number of employees of the Company were 354 and 352 for the years ended December 31, 2025 and 2024, respectively, including 10 non-employee directors in both years.

Average employee benefit expenses for the years ended December 31, 2025 and 2024 were NT\$1,051 thousand and NT\$1,037 thousand, respectively. Average salaries for the years ended December 31, 2025 and 2024 were NT\$898 thousand and NT\$887 thousand, respectively, and the average salaries changed by 1.2% year over year.

The Company's salary and remuneration policy is as follow:

A. Directors

Remuneration to directors includes board meeting attendance traveling fee; the remuneration to directors for profit distribution are in accordance with the Company's Articles of Incorporation approved by the stockholders' meeting and are highly related to the Company's operating performance; the chairman and the independent directors receive a reasonable fixed monthly remuneration.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

B. Chief executive officer and vice presidents

The Company's chief executive officer's and vice presidents' remuneration include fixed monthly salaries, performance bonus, and employees' compensation. The salaries referenced the salary level of similar positions in the industry market from the labor market salary survey report obtained by the Company and consider the responsibilities of the position. Performance bonus and employees' compensation are related to the Company's operating performance that are set at a fixed ratio of the Company's profit for the year.

C. Employees

The Company's employee compensation refers to the peer level of the industry and is evaluated based on employees' professional competence and personal performance assessment.

According to the Company's Article of Incorporation, no lower than 5% of profit of the current year is distributable as employees' compensation and no higher than 2% of profit of the current year is distributable as remuneration to directors. However, before distributing employees' compensation and remuneration to directors, the Company's profit should offset its accumulated losses, if any. The Company may, by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition, there to a report of such distribution is submitted to the shareholders' meeting. Information on the Board of Directors' resolution regarding the employees' compensation and remuneration to directors can be obtained from the "Market Observation Post System" on the website of the TWSE.

The Company accrued employees' compensation and remuneration to directors based on 5% and 2%, respectively, of profit for the year ended December 31, 2025. The amount of employees' compensation and remuneration to directors accrued for the year ended December 31, 2025 were NT\$6,338 thousand and NT\$2,535 thousand, respectively. The aforementioned employees' compensation and remuneration to directors were accrued based on the profit of the current year and recognized as salary expenses. If the Board of Directors resolved to distribute employees' compensation in the form of stocks, then the number of stocks distributed as employees' compensation was calculated based on the closing price one day earlier than the date of resolution. If the estimated amounts differ from the actual distribution resolved by the Board of Directors, the Company will recognize the change as an adjustment in profit or loss of the subsequent year.

The Company accrued employees' compensation and remuneration to directors based on 5% and 2%, respectively, of profit for the for the year ended December 31, 2024. The amount of employees' compensation and remuneration to directors accrued for the year ended December 31, 2024 were NT\$6,110 thousand and NT\$2,444 thousand, respectively.

UNITECH ELECTRONICS CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

A resolution was approved in a meeting of the Board of Directors held on March 10, 2026 to distribute NT\$6,338 thousand and NT\$2,535 thousand in cash as employees' compensation and remuneration to directors, respectively. There were no significant differences between the aforementioned approved amounts and the amounts charged against earnings in 2025.

A resolution was approved in a meeting of the Board of Directors held on March 4, 2025 to distribute NT\$6,110 thousand and NT\$2,444 thousand in cash as employees' compensation and remuneration to directors, respectively. There were no significant differences between the aforementioned approved amounts and the amounts charged against earnings in 2024.

Note: Includes cash and cash equivalents (excluding cash on hand), financial assets measured at amortized cost (including noncurrent), receivables (including related parties), other receivables (excluding VAT refund receivable) and refundable deposits.

(2) Financial risk management objectives and policies

The Company's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activities. The Company identifies, measures and manages the aforementioned risks based on the Company's policy and risk exposures.

The Company has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors must be carried out based on related protocols and internal control procedures. The Company complies with its financial risk management policies at all times.

(3) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and other price risk (such as equity instruments).

In practice, it is rarely the case that a single risk variable will change independently from other risk variables; there are usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Foreign currency risk

The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense are denominated in a different currency from the Company's functional currency) and the Company's net investments in foreign subsidiaries.

The Company has certain foreign currency receivables denominated in the same foreign currency with certain foreign currency payables, therefore natural hedge is achieved. The Company also uses forward contracts to hedge the foreign currency risk on certain items denominated in foreign currencies. Hedge accounting is not applied as they did not qualify for hedge accounting criteria. Furthermore, as net investments in foreign subsidiaries are for strategic purposes, they are not hedged by the Company.

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Company's profit is performed on significant monetary items denominated in foreign currencies as of the end of the reporting period. The Company's foreign currency risk is mainly related to the volatility in the exchange rates for USD. The information of the sensitivity analysis is as follows:

UNITECH ELECTRONICS CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

When NTD appreciates/depreciates against USD by 1%, the profit for the years ended December 31, 2025 and 2024 would decrease/increase by NT\$3,216 thousand and NT\$4,177 thousand, respectively.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's bank deposit at variable interest rates. Therefore, the Company expects no fair value and cash flow risks due to significant interest rate fluctuations.

Other risk

The Company's investment of funds and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company's investment of funds and unlisted equity securities are classified as financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. The Company manages the equity price risk through diversification. Reports on the equity portfolio are submitted to the Company's senior management on a regular basis. The Company's Board of Directors reviews and approves certain equity investments according to level of authority.

A change of 1% in the price of the funds would increase/decrease the Group's investment of funds for the year ended December 31, 2025 and 2024 by NT\$1,008 thousand and NT\$0, respectively.

Please refer to Note 12(9) for sensitivity analysis information of other equity instruments whose fair value measurement is categorized under Level 3 of the fair value hierarchy.

(4) Credit risk management

Credit risk is the risk that counterparty will not meet its obligations under a contract, leading to a financial loss.

The Company is exposed to credit risk from operating activities (primarily for contract assets, trade and notes receivables) and from financing activities (primarily for bank deposits and other financial instruments).

Credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to credit risk management. Credit limits are established for all counterparties based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Company's internal rating criteria, etc. Certain counterparties' credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment or insurance.

UNITECH ELECTRONICS CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Credit risk from balances with banks, fixed income securities and other financial instruments is managed by the Company's treasury in accordance with the Company's policy. The Company only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions, companies and government entities with good credit rating. Consequently, there is no significant credit risk for these counterparties.

(5) Liquidity risk management

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents and bank borrowings. The table below summarizes the maturity profile of the Company's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amounts include the contractual interest. The undiscounted payment relating to payment with variable interest rates is extrapolated based on the estimated interest rate yield curve as of the end of the reporting period.

Non-derivative financial liabilities

	Less than 1 year	1 to 3 years	4 to 5 years	Later than 5 years	Total
As of December 31, 2025

As of December 31, 2025	<u>\$ -</u>	<u>\$ 18,099</u>	<u>\$ 1</u>	<u>\$ 18,100</u>

Reconciliation of liabilities for year ended December 31, 2024:

	Short-term borrowings	Lease liabilities	Deposits received	Total liabilities from financing activities
As of January 1, 2024	\$ -	\$ 13,852	\$ 1	\$ 13,853
Cash flows				
Inflow	20,000	-	-	20,000
Outflow	(20,000)	(7,656)	-	(27,656)
Non-cash flows	-	3,240	-	3,240
As of December 31, 2024	<u>\$ -</u>	<u>\$ 9,436</u>	<u>\$ 1</u>	<u>\$ 9,437</u>

(7) Fair values of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Company to measure or disclose the fair values of financial assets and financial liabilities:

- a. The carrying amount of cash and cash equivalents, financial assets measured at amortized cost, receivables, other receivables, payables and other payables approximate their fair value due to their short maturities.
- b. For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures, etc.) at the reporting date.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- c. Fair value of equity instruments without market quotations, such as private company equity securities, are estimated using the income approach. The income approach is based on evaluating the flow of future profits created by the underlying investment and through the process of discounting the flow of future profits into the value of the underlying investment. The future cash flow is calculated by the underlying investment's financial forecast and future long-term stable growth rate. The fair value is calculated by using the Weighted Average Cost of Capital as the discount rate.
- d. Fair value of debt instruments without market quotations, lease liabilities, refundable deposits, and deposits received are determined based on the counterparty prices or valuation method. The valuation method uses discounted cash flow analysis as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instruments (such as yield curves published by the Taipei Exchange, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.).
- e. The fair value of derivatives which are not options and without market quotations, is determined based on the counterparty prices or discounted cash flow analysis using interest rate yield curve for the contract period.

B. Fair value measurement hierarchy for financial instruments

Please refer to Note 12(9) for fair value measurement hierarchy for financial instruments of the Company.

(8) Derivative financial instruments

The related information for derivative financial instruments not qualified for hedge accounting and not yet settled as of December 31, 2025 and 2024 are as follows:

Forward exchange contracts

The Company entered into forward exchange contracts to manage its exposure to financial risk, but these contracts were not designated as hedging instruments. The table below lists the information related to forward exchange contracts:

UNITECH ELECTRONICS CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Items	Contract amount	Maturity period
As of December 31, 2025		
Forward exchange contracts	Sell EUR 1,012 thousand	From January 9, 2026 to March 20, 2026
Forward exchange contracts	Sell JPY 182,900 thousand	From January 9, 2026 to March 23, 2026
As of December 31, 2024		
Forward exchange contracts	Sell EUR 940 thousand	From February 10, 2025 to March 21, 2025
Forward exchange contracts	Sell JPY 98,000 thousand	From February 10, 2025 to March 21, 2025

The Company entered into forward contracts to hedge foreign currency risk of net assets or net liabilities. As there will be corresponding cash inflows or outflows upon maturity and the Company has sufficient operating funds, the cash flow risk is insignificant.

(9) Fair value measurement hierarchy

A. Fair value measurement hierarchy

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 – Unobservable inputs for the asset or liability

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

B. Fair value measurement hierarchy of the Company's assets and liabilities

The Company does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Company's assets and liabilities measured at fair value on a recurring basis is as follows:

Information on significant unobservable inputs to valuation

Description of significant unobservable inputs to valuation of recurring fair value measurements categorized within Level 3 of the fair value hierarchy is as follows:

As of December 31, 2025

	Valuation techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets:					
At fair value through other comprehensive income					
Preferred stocks	Income approach	Discount for lack of marketability	17.46%	The higher the discount for lack of marketability, the lower the fair value estimated	5% increase (decrease) in the discount for lack of marketability would result in decrease/increase in the Company's equity by NT\$(1,160)/NT\$1,160 thousand

As of December 31, 2024

	Valuation techniques	Significant unobservable inputs	Quantitative information	Relationship between inputs and fair value	Sensitivity of the input to fair value
Financial assets:					
At fair value through other comprehensive income					
Preferred stocks	Income approach	Discount for lack of marketability	16.19%	The higher the discount for lack of marketability, the lower the fair value estimated	5% increase (decrease) in the discount for lack of marketability would result in decrease/increase in the Company's equity by NT\$(1,009)/NT\$1,009 thousand

UNITECH ELECTRONICS CO., LTD.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy

The Company validates the fair value measurements and ensures that the results of the valuation are in line with market conditions, based on independent and reliable inputs which are consistent with other information, and represent exercisable prices. The Company analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Company's accounting policies at each reporting date.

As there are several types of foreign currency transactions within the Company, it is not practical to disclose the exchange gains and losses of monetary financial assets and liabilities by each significant asset and liability denominated in foreign currencies. The foreign exchange (losses) gain were NT\$(13,796) thousand and NT\$24,916 thousand for the years ended December 31, 2025 and 2024, respectively.

The above information is disclosed based on the carrying amount of foreign currency (after conversion to functional currency).

(11) Capital management

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Company manages its capital structure and adjusts it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust dividend payment to shareholders, return capital to shareholders or issue new shares.

13. Other Disclosure

(1) Information related to significant transactions

A. Financing provided to others for the year ended December 31, 2025: None.

B. Endorsement/Guarantee provided to others for the year ended December 31, 2025: None.

C. Significant securities held as of December 31, 2025: Please refer to Attachment 1.

D. Related party transactions for purchases and sales amounts exceeding the lower of NT\$100 million or 20 percent of the capital stock for the year ended December 31, 2025: Please refer to Attachment 2.

E. Receivables from related parties with amount exceeding the lower of NT\$100 million or 20 percent of the capital stock as of December 31, 2025: None.

F. Other: Intercompany relationships and significant intercompany transactions: Please refer to Attachment 3.

(2) Information on investees

Names, locations, main business activities, original investment amount, shareholding at the end of the period, net income or loss for the period, and recognized investment income or loss of investees over which the Company has direct or indirect significant influence or control (excluding information on investment in Mainland China): Please refer to Attachment 4 and Attachment 4-1.

(3) Information on investments in Mainland China

A. Investee company name, main business activities, total amount of capital, method of investment, accumulated inflows and outflows of investments from Taiwan, percentage of ownership, investment income (loss), carrying amount of investments, accumulated inward remittance of earnings and limits on investment in Mainland China: Please refer to Attachment 5.

NOTES TO PARENT COMPANY ONLY FINANCIAL STATEMENTS (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- B. The significant transactions with investee companies in the Mainland Area, either directly or indirectly through a third area:
- a. The amount and percentage of sales and the balance and percentage of the related receivables with Xiamen Unitech Co., Ltd. at the end of the period:
 - (a) The sales amounted to NT\$26,366 thousand representing 1.24% of the net sales.
 - (b) The receivables amounted to NT\$2,161 thousand representing 0.48% of the receivables.
 - b. The amount and percentage of purchases and the balance and percentage of the related payables with Xiamen Unitech Co., Ltd. at the end of the period:
 - (a) The purchases amounted to NT\$75,534 thousand representing 5.04% of the net purchases.
 - (b) The payables amounted to NT\$9,292 thousand representing 3.25% of the payables.
 - c. The amount of property transactions and the amount of the resultant gains or losses: None.
 - d. The balance of negotiable instrument endorsements or guarantees or pledges of collateral at the end of the period and the purposes: None.
 - e. The highest balance, the end of period balance, the interest rate range, and total current period interest with respect to financing of funds: None.
 - f. Other transactions that have a material effect on the profit or loss for the period or on the financial position, such as the rendering or receiving of services: None.

- (2) Subsidiaries to sub-subsidiaries.
- (3) Subsidiaries to subsidiaries.

Note 3: Regarding the calculation of the ratio of the transaction amount to total consolidated revenue or total assets, it is calculated based on the ratio of the ending balance to total consolidated assets for balance sheet items; and based on the ratio of interim accumulated amount to total consolidated revenue for profit or loss items.

Note 4: The significant transactions in this table may be determined by the Company according to the principle of materiality.
